TESTIMONIALS

ISHRET WAHID, CARE BANGLADESH
[Watch interview](#)

I really liked the coaching session. Before that I didn't have any understanding of what is coaching. The moment we got into the practice session I started realizing how great it is to have someone asking me questions in a way that I bring the solutions out of myself.

**THOMAS HOERZ, AREA MANAGER,
SOMALILAND, WELTHUNGERHILFE**

Thanks to the training, I was able to reflect deeply on my own leadership style and values. It also helped me reflect on the strengths and weaknesses of the managers and leaders working in my program. I was most impressed with the competent and patient facilitation by Sohini.

SIRSHENDU PAUL, TATA TRUST INDIA

I believe that every leader is reflective. What he or she needs is a space where there is no fear to express him or herself. Where he or she can understand what is within and what needs to be done more. That kind of space was safely given by the CSA during the leadership course.

**GUYO DENG, EXECUTIVE DIRECTOR,
CIFA, ETHIOPIA**

I realized that advocacy is the most important tool for enhancing the scope of understanding or awareness on any issue.
